- Compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.**
I can compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes.
- Identify acute and obtuse angles, and compare and order angles up to two right angles by size.
I can identify acute and obtuse angles. I can compare and order angles up to two right angles by size.
- Identify lines of symmetry in 2-D shapes presented in different orientations.**
I can identify lines of symmetry in 2-D shapes presented in different orientations.
- Complete a simple symmetric figure with respect to a specific line of symmetry.
I can complete a simple symmetric figure with respect to a specific line of symmetry.
- Begin to recognise where angles are greater than two right angles. Know the term straight angle, referring to two right angles together.
I can recognise where angles are greater than two right angles. I know the term straight angle refers to two right angles together.
- Begin exploring line symmetry with two lines of symmetry.
I can use line symmetry with two lines of symmetry.

Band 4 - Maths Geometry
 Position & Direction

b

w

w+

S

s+

- Describe positions on a 2-D grid as coordinates in the first quadrant.
I can plot positions on a 2-D grid as positive number coordinates.
- Describe movements between positions as translations of a given unit to the left/right and up/down.
I can describe movements between positions as translations of a given unit to the left/right and up/down.
- Plot specified points and draw sides to complete a given polygon.**
I can plot points I am given and draw sides to complete a given polygon.
